

- 6A three-phase energy meter with built-in communication
- Certified MID version
 - For Ethernet communication (Modbus TCP)
 - For 1 or 5A transducer
 - Programmable transformer ratio
 - Fully bi-directional four-quadrant measurements for all energies and powers
 - For 4-wire networks with symmetrical or asymmetrical load
 - Class B according to EN 50470-3
 - S0 output for energy pulse delivery

Technical data	
Mounting	DIN-Schienen Montage
Number of digits	8
