

- 6A three-phase energy meter
- Certified MID version
 - For 1 or 5A transformer
 - Programmable transformer ratio
 - Fully bidirectional four-quadrant metering for all energies and powers
 - For 3 / 4 wire networks with symmetrical or asymmetrical load
 - Class B according to EN 50470-3
 - Extension port for communication interface
 - S0 output for energy pulse output

Technical data	
Mounting	DIN-Schienen Montage
Number of digits	8
