

- 80A three-phase energy meter with built-in communication
- Certified MID version
 - For Ethernet (Modbus TCP) communication
 - Direct connection up to 80 A
 - Fully bidirectional four-quadrant metering for all energies and powers
 - For 4-wire networks with balanced or unbalanced load
 - Class B according to EN 50470-3
 - S0 output for energy pulse delivery

Technical data	
Mounting	DIN-Schienen Montage
Number of digits	8
