EQ Ammeter (AC, 90° scale) Moving iron meter Ammeter
Reliable analogue measuring device with moving iron movement for AC current measurement in the frequency range of 15-400 Hz. It reliably displays the effective RMS value even with distorted signals with harmonics.
The robust design makes the device ideal for industrial use.
Features:

- RMS measurement even with harmonics
- Polarity-independent connection
- Overload-proof according to DIN 43780
- Clearly legible 90° scale

Variants (227)
