

The 5-digit display unit M2.96-145 TC is used for temperature measurement by means of thermocouples and visual limit value monitoring via the display. The display is configured via four front keys or by means of PM-TOOL, our optional PC software. Options such as an analog output and two setpoints are available to the user for further evaluation. Selectable software functions, a direct limit value adjustment in operating mode and the compact installation depth of 89 mm form a solid device concept.

Technical data	
Power supply	240AC, 230AC, 24DC, -, 10-30DC, 40DC
Measuring input	Thermocouple typ L,J,K,B,S,N,E,T,R
Number of digits	5
Digit height	14 mm
Width × height	96 x 48 mm

Variants (5)
