

The M3.48-105 F is a 5-digit display for measuring pulses by means of incremental encoder, NPN/PNP or Namur sensor and a visual limit value monitoring via the display. The configuration is done via 3 front keys or by means of an optional PC software. Optionally available are an analog output, a sensor supply, a digital input, a frequency output and 2 setpoints. Selectable software functions and a direct limit value adjustment in the operating mode complete the device concept.

Technical data	
Measuring input	Impuls, Namur, 3-conductor PNP/NPN
Number of digits	5
Digit height	10 mm
Width × height	48 x 24 mm

Variants (7)
