

Thermocouple

M3.96-145 TC

The M3.96-145 TC is a 5-digit digital display for temperature measurement using thermocouples and visual limit value monitoring via the display. The display is configured via four front keys or by means of optional PC software PM-TOOL. Optional interfaces RS232/RS485, up to 8 setpoints and two analog outputs are available. Selectable software functions as well as a direct limit value adjustment in the operating mode complete the modern device concept.
