

The M3.96.2-145 F is a 5-digit display for measuring pulses using incremental encoders, NPN/PNP or Namur sensors and a visual limit value monitoring via the display. The configuration is done via 3 front keys or by means of an optional PC software. An analog output, RS232/RS485 interfaces, a frequency output and 2 switching points are optionally available. Selectable software functions and a direct limit value adjustment in the operating mode complete the device concept.

Technical data	
Power supply	240AC, 230AC, 24DC, -, 10-30DC, 40DC
Measuring input	Impuls, Namur, 3-conductor PNP/NPN
Number of digits	5
Digit height	14 mm
Width × height	96 x 24 mm

Variants (4)
